

HANDOUT 5
(revised 01-20-06)

DRAFT California Commercial Landings of Minor Nearshore Rockfish Species
and State-Managed Nearshore Species for 2004 and 2005*
(*preliminary data from 1/3/06 extract)

Minor Nearshore Rockfish Species

PacFIN Best Estimate (mt) of Commercial Landings for Minor Nearshore Rockfish Species, 2004				
Area	Group	HG	Landings (mt)	% of HG
North of 40° 10' N	Black RF	123	57	46
	Shallow + deeper NS RF	14.8	7	47
South of 40° 10' N	Black RF	17	5	29
	Shallow NS RF	38.8	41	106
	Deeper NS RF	37.2	43	116
	Scorpionfish	21	5	24

PacFIN Best Estimate (mt) of Commercial Landings for Minor Nearshore Rockfish Species, 2005				
Area	Group	HG	Landings (mt)	% of HG
North of 40° 10' N	Black RF	116	57	49
	Shallow + deeper NS RF	14.8	27	182
South of 40° 10' N	Black RF	25	3	12
	Shallow NS RF	97	41	42
	Deeper NS RF		37	38
	Scorpionfish		4	4

Note: Includes all gear types for both limited entry and open access vessels combined.

State Managed Nearshore Species

Estimates of Statewide Commercial Landings (pounds) for State Managed Nearshore Species, 2004 and 2005				
Year	Species	TAC	Landings (pounds)	% of TAC
2004	Cabazon	75,600	108,881	144
	Greenlings	3,400	4,519	133
	Sheephead	75,200	87,213	116
2005	Cabazon	59,300	68,863	116
	Greenlings	3,400	3,854	113
	Sheephead	75,200	77,480	103
